

Generative AI Use Declaration

FIT5196 Data Wrangling | A1 (15%) | Semester 2, 2026

Important Notice

If any group member used a generative AI or AI-assisted coding/writing tool, the group must:

1. Submit complete assignment-related conversation exports in English.
2. Submit an English AI index recording the member/tool, export filename, purpose, affected work, and independent verification.

Inline AI completion without chat history must also be declared:

- Record the member/tool, affected files or functions, assistance, and independent verification.
- Do not invent a transcript when no conversational record exists.

If no group member used generative AI, the group must still complete and sign this declaration.

Group Declaration

By signing below, each member confirms that:

The declaration and submitted records are complete.

When required, complete exports and the AI index are in AI_records/.

The group remains responsible for every submitted item, including AI-assisted work.

AI-assisted work was independently checked, the workflow runs offline, and each member can explain their contribution.
